

*CONSTRUCTIVE NOTICE of
UNDERSTANDING and INTENT*

DECREE of SOVEREIGNTY

DECLARATION of PEACE

CLAIM OF RIGHT

CLAIM of DIPLOMATIC IMMUNITY

SCHEDULE of FEES

This instrument of Sovereign Decree is sworn as affidavit.
These presented understandings are what I stand under as my
Claim of Right Absolute
within and throughout this whole three dimensional reality,
within and throughout our shared lawfull and legal Australian communities

until publicly,
in televised forum of community based integrity audit
countered
point by point
with material facts or evidence
by any living soul seeking to do so
in sworn oath, under full comercial liability and under threat of perjury.

Should our system prove this notice and decree is not in align with the common good of all, is not in the spirit of the greatest respect, ethic and honour for my relationship with our human family, or is not in harmony with our best attempt to define the intent of creation, then I will align with their directives.

It is presumed that everyone who states that he is a "person or a citizen of the COMMONWEALTH OF AUSTRALIA," or acts as if he were, has knowingly, intentionally, and voluntarily contracted into the private, military, international, commercial admiralty/equity law and has surrendered all rights, and agreed to be bound by the alleged resulting contract. One is now "on the ship," where the captain's word is law and trying to protect your rights, find the system in error, or walk off the job is walking off the plank. '

I find my life at a point where I am moved to know the truth of how our world works and to what degree of integrity I may expect from the governing body I and my forebears have innocently assumed were there as our benevolent support whom I have assumed were there to be relied upon as organs as lovingly benevolent as those which serve our very own living human bodies.

It would seem that what we call the system wears an attitude far from benevolence, which has been hijacked by those who have opportunity too and would use the system for extracting the life force from fellow living souls for unjust enrichment, for greedy self interest. As one explores the mechanics and the story of the religious/corporate/banking/governing system it becomes more apparent that it operates out of align with the common good of all

casual glance indicates (that government)the collective organ of heart which one would expect to be the unreserved deliverer of nourishment to each and every cell unconditionally has become the tool of a cancerous tumor which is motivated to take as much of the common wealth of all as possible for unjust enrichment

I am moved for my and my own family and tribes protection to initiate this instrument and decree It is my intent to provoke a response which may allow me to share with my family, my children, my tribe and my community a more clearer and definite knowing of how our system truly operates and the true attitude it holds in regard to we as individual cells of our greater collective organism of humanity, I seek to know the truth of our human sovereignty and how far removed our system is from knowing and acting benevolently to each individual being in regard to our each and every being being an individual cell of our collective organism we know as humanity. And in fact our each and every being being a living participating unit of the unity of creation.

I would seek to reveal and identify the paradigm by which our religious/corporate/government/banking system judges us and has us hold ourselves in ignorant servitude.

I would seek to wonder why we do not collectively participate passionately to align with the intent of creation.

INTRODUCTION

Greetings fellow living souls with whom I share Life, Breath and Living Community

I present this following work as a clarifier of mind, a definer of intent, a revealer of motivation, an inspirer of collective goodness, a declaration of peace, a personal aspiration for ethic and honour and an absolute claim of sovereign right.

This notice has been compiled from and inspired by the works of a number of other fellow members of our human family.

This notice is designed to activate remedy from ignorant self imposed commercial captivity/ servitude for myself and any other who imbibes the heart warming truths herein collected and presented.

This modern world we find ourselves living in is the most amazing puzzle any could imagine. It is complex to the nth degree while simultaneously being totally ridiculously simple, so simple and obvious it is hidden before our eyes and awareness.

Please read carefully and ponder the notions presented together with friends and family, then write this instrument out for yourself, put in your name and see and feel this notion of your sovereignty, add in or omit anything that suits your unique individuality and ponder and intuit the notion of serving your own claim of right upon our human family's collective organs of government and justice.

Together we may ascend spiritually, emotionally, physically .

Together we may rise above all that which has us not access our fullest joy and potential .

Together we may consciously co create a permaculture of our life, our love and our communities;

enlightened humanity will not be found in Empire of the greedy few feeding upon the many
enlightened humanity may be found in a limitless guild of sovereign units sharing openly,
honestly, unconditionally, unreservedly in rhythm, harmony and melody for the simple joy and
privilege of being alive and sharing.

This work is presented in three parts

One- a general pondering of practical notions of how one may understand some parts of life
love and law..

Two – personal decree of sovereignty and declaration of peace.

Three- decree of authorship, what it is I expect and will to enjoy and experience in our shared world and my intention for such.

The further away an authority is when making decisions for people, the less relevance the decisions made have to the people.

*The fiction body of corporation may sound it's voice only in paper record
the corps-oration/ dead which speaks*

*my record held in the public realm of government and commerce may be left to be authored by
the authorities*

or

my record may be authored by my own sovereign authority

*humbly I claim my sovereign authority is simply the same as any voice from any living soul who
may remember and wish to decree their truth.*

*It would appear that our system does not operate for the common good of all
It would appear that our money system has been designed for the unjust enrichment of non
contributing others,*

*It would appear our court systems operate to extract our life force for the unjust enrichment of
non contributing others,*

*It would appear that our governing and police and military systems operate as agents for the
unjust enrichment of non contributing others,*

Maxims of Law-

He who questions well, learns well

He who distinguishes well, learns well.

Time runs against the slothful and those who neglect their rights.

Notions

*He who denys the existance of evil, or that which works against the common good of All, is
offering evil the greatest protection of invisability.*

For evil to succeed it requires only for we good people to do nothing.

This instrument of notice and decree is presented for all in the loving spirit of honour, ethic, fun,

adventure, care and sharing.

This instrument of notice and decree is remedy to my own ignorance which has had me accept and suffer all manner of bothers, limitations and servitude.

If you feel, think or know that your life and its unfolding would be better served by you being the Sovereign Authority in All matters concerning your existence,

If you feel, think or know that through your ignorance you are allowing your life and its unfolding to be unnecessarily taxed and controlled, frivolously and vexatiously extorted from by fellow beings who have spiritual immaturity, ignorant self interest, greed and disrespect at the core of their motivation and being,

If you feel think or know our ignorance is allowing our systems to afford for the few at the expense of the many unjust enrichment for non productive contribution, wherein we see beings believe that those of us who are investing their sweat and muscle to this three dimensional reality are contributing less value than bureaucrats and book keepers of the religion/corporate/government/banking system.

Then

This Notion, This Notice is for You

It is with the greatest respect and love I issue forth the following set of notices declaring myself

| always have been and | always will be free.

| exist now in humanities endgame of power versus ethics,

| exist now in humanities cosmic opportunity to graduate third dimensional reality.

| exist now in my personal opportunity to focus upon and intuit into my ultimate destiny.

| exist now in my duty to define and activate ethic, honour and honesty in heartfelt service to my
fellow members of our human family.

| consider this instrument to be honest, honourable, ethical and in align with the intent of creation

| consider this instrument will be template for millions of fellow cells of our collective organism
for millions of fellow units of the unity of creation.

I am a Sovereign Living Soul Free-man-on-the-land personifying Spirit through my human
form.

The word of God the Intent of Creation is written in my heart and likewise the hearts of all, and
the written word is the word of man.

I may look into and operate from my heart to intuit and minister the cosmic mystery of love for
the common good of all,

and I may look into and operate from the bible to survive in the world of commerce.

I do swear oath to the notion that god is good and good is god,
and All that may be conceived, perceived, believed, experienced and imagined is

All

[my preferred appellation for the notion god]

All may be seen and understood as the whole of creation, which like the autonomous entity of
man has a will, a nature, a character and intent.

The nature and intent of creation is truth, goodness, ethics, honesty, honour, compassion,
grace and endurance.

Therefore, we, each and every one of us are autonomous cells of All
experiencing the universe

and

each of our unique and individual life adventures

is the ever growing, ever expanding, ever evolving, ever changing experience of the living

All

We may either aspire to and reflect the nature and intent of creation or choose to be lost in the dark shadows of self interested ego delusion.

I understand the living experience of my existence in my reality, taken through my senses is that which will develop my understanding.

I understand my understandings are the treasures my life adventure has won and will win for All.

I understand that my perspective is my own unique and individual mental view of facts and notions and their interrelationships; my perspective is the ability to hold as much of the incoming data as possible as a bigger picture, from which I develop my understanding, my meaning of life and the purpose which will ultimately shape the dreams I will to unfold.

The following instrument defines the paradigm from which I create my life and existence, is the datum from which I gauge life and make decision and stands as my law.

I understand that belief is that which fuels meaning and purpose.

I understand my perceived reality is the reality I will experience, and any preconceived ideas and implanted beliefs affect my perspective and ultimately the reality I will experience.

I understand paradoxically to believe nothing and accept everything is my spiritual way to win the true wealth and treasures of this reality.

I understand that the only treasure worth winning is the wealth and treasure that may be taken with me beyond the illusion of death.

I understand that treasure is
my understanding.

I understand what I pay attention to I become conscious of.

I understand that death is an illusion and the notion of ascension is as conceivable, perceivable, believable and achievable as any notion I may hold

I understand within and beyond my human form I have etheric form which is self aware without

ego, it inhabits my human form though is not attached to it, it is guided by wisdom rather than emotion, it is the core of my wholeness, is virtuous and can never die.
it is the ethos which may glow as my luminosity

I understand to believe “believe nothing and accept All” is the ultimate secret of ancient wisdom; and to cultivate a passionate and unconditional love of my each and every unfolding moment of life's mystery, is the ultimate prize, the holy grail of existing.

I understand metaphysically that which we come from and return to is the effortless magnetic attractability of Yin, and to experience existence in any reality is the deliberate effortfulness of yang; and the ultimate purpose of existing is to initiate and live intense emotional experience, to develop self responsibility and personal authority, to strengthen rationality and win understanding; to be good, to be true, to endure and to have installed in one's heart the ethic of creation and beyond the confines of thinking intuit joyfully our ultimate destiny .

Maxims of law

Reason is a ray of divine light.

Reason and authority are the two brightest lights in the world.

Reason in law is perfect equity.

The reason of the law is the soul of the law.

Reason is not confined to any place.

Simplicity is favourable to the law..

I understand in my experience of being conscious beyond mere physicality and mentality I know of the taste of the principles of immortality, eternity and utter goodness.

I understand my passionate investigation into who I might be; and from and to where I may go, be or do, has the rightness and reason of my mind look to and question our shared world; has me ponder and wonder about how things are and how they might be for myself and All the other selves with whom I share living experience.

I understand that to know in my own direct experience of Spirit, it is my duty to extend beyond mere intellectual phantasmagoria and invoke, provoke and inspire to do things that test my reality, my spirit and the truths we All live by.

I understand my self, nature, All beings, All life forms, the earth, the world, the universe and beyond to be wheels within wheels of identical reflections and to come to know my self well, I will come to know equally

All

Maxim—There is no disputing against or denying principles.

There is a fundamental law or principle of Mathematics, but none of error; there is a principle of health, but none of disease; there is a principle of truth, but none of dishonesty; there is a principle of light, but none of darkness, there is a principle of abundance, but none of poverty; there is a principle of sovereignty, but none of slavery, and there is a principle of meek but none of greedy self interest.

I understand in living into my life, making choices and exacting my attitudes, opinions and beliefs, affects directly the conditions and circumstance of my environment and those with whom I share life, breath and living community.

I understand that to be humbly transparent in my motivation, my intentions and my agenda offers the greatest advantage for integral choice for All others.

I understand to negate/criticize/conflict/debate is to dishonour, to not accept, To not accept is to shut out and to have not included in my experience.

I understand to accept is to honour, to allow in, to have and to hold in understanding,

I understand this to be a fundament of honour.

I understand Honour to be honesty, fairness and integrity in ones beliefs and actions, and that honour is the foundation of commerce.

I understand that to expect also humble, honest and open revelation of motivation, intent and agenda from All others and All authority is fair and equitable.

I understand the fundamental law of all humanity is commerce, and it represents symbolically the basic interactions all humanity has with nature and each other.

The fundamental law of humanity is commerce and the foundation of the law is honour.

I understand the nature and intent of present humanity is to temper power with ethic.
I understand the nature of ethic is ethos and ethos is the glow of luminosity worn etherically, and luminosity is the nature and character of creation.

I am limitless in my experience as individual consciousness and when I choose to meet with another in a common focus I contract my spirit from limitlessness to meet in common focus.
The connection of our contracting is a uniting or a meeting of our life force and this current of life force is the currency of our exchange, and this currency of exchange is fundamentally our love and respect, our goodness and truth.

In our contracting we are able to invest our life force into the common contracting and as we with integrity share our focus we are able to return a genuine interest, which will engender a positive charge to our meeting.

a positive charge adds to our beingness and allows an energy of expansion of goodness,
happiness, joy.

a negative charge engenders a taking from our beingness, a discharge of lack, loss, falling into a depression, sadness, death and misery.

if in our sharing there is no genuine admiration or genuine interest there can only be usury, which takes without genuine goodness of care and share,, this is that which creates loss, depression

for commerce to operate in cosmic rhythm and harmony it requires to integrate in Honour
Honour is the expression of the cosmic principals of the nature of creation

goodness
truth
endurance

A being having met in contration begins to commerce,
the use of honour in the form of genuine interest and admiration expressed in the qualities of

Passion- heartfelt participation
Compassion-seeking to share heartfelt participation
Respect- to look actively- admiration
Ethic- the ethos I wear etherically, the glow of my luminosity

All that may be commerced may only be offered
and the offering is either accepted or not accepted

To offer is to present and a present is a gift
how one accepts or declines a present is the fulcrum of honour and dishonour.

As I offer in my commerce I seek to have reflected to me the honour which I project

I seek to receive genuine consideration for my offer.

The principal of honour for my offering is to receive absolute acceptance
where the entity with whom I make offer accepts completely that which I have offered and
reflects the worth I have attributed to the presentation.

The next layer of honour for my offering is to receive conditional acceptance
where the entity with whom I make offer accepts with certain conditions which we will negotiate
to some agreement.

A genuine interest is payed for the present and the currency of exchange is met equally as love
and respect and a positive charge is imbibed by all involved in the commerce , each is enriched
by the interaction each has gained, benefited equally, each has contributed equally.

The mechanics of dishonor is first a silence, an ignoring of my present
where the entity with whom I have made offer has knowingly disregarded my presentment, has in
knowing disregard disqualifys the value of my presentment, has by ignoring made a testimony of
disrespect

has commerced a consideration of worthlessness to my presentation

also dishonour in commerce is to dispute, to debate, to conflict and actively declare
consideration of worthlessness to my presentation.

The other area of dishonour is usury where advantage is taken in accepting a presentation and genuine interest is not exchanged, where respect is not commended a taking of all that can be taken and as little as possible is returned, a stealing or theft an unequal exchange, a darkness, a shadow.

If a clear ethic is worn no shadow is cast.

I understand that the modern banking system to be dishonourably using of fellow living souls by those who hold advantage. Exchanging money of account for money of exchange, taking sweat equity and exchanging only ill-usury numbers

If I have no debt and I owe none, I am a creditor and my creation owes me my charges, I charge my lifescape with the luminosity I wear etherically as my goodness, it owes me currency for my charge, my charge creates current, current in circulation, my spirits luminosity in circulation is the currency owed me by my creation,

the organ of government is responsible for directing and managing the combined current of humanity and regulates the nourishment from the commonwealth to each and every cell of the whole.

I am a debtor or creditor in relation to that which I spend or charge.

I spend my charge in my own indulgence, my own interests, or the injury or disharmony I may affect for others

I invest my charge in my sharing and giving of my luminosity.

I understand honour to embody the values of trustworthiness, inspiration, integrity, credibility, respectability, reputation, presence, grace, dignity, altruism, selflessness, courage, dedication, efficacy and these values are ideals which when exercised shine a luminosity into my shared world, the shared world beyond my family and tribe is the world of the public, into which I may shine and share luminosity into the commonwealth, I openly and unreservedly shine into my shared world, and I appreciate my sharing in my accepting access to exemption/offset account

483368885

I understand our money system operates as a fiat currency, whereby our money is debt notes with a decreed value by the authority of government, and each note is no more than a promise to pay, and may only discharge a debt, meaning promise to pay it in the future when money of substance becomes available, the use of the fiat note can not settle and close any debt, it can only augment the collective debt, it can only make a bigger burden for my fellow man.

I understand our money system when going into a fiat currency created a debt liability for those who use it and in scripture as the creator of a liability (government) is required to supply a remedy for those who may ask, and the remedy is the exemption or offset account which is set up with every birth certificate. The use of the exemption is remedy from commercial servitude and has the power to extinguish debt, it is the most honourable ethical and honest means we have to use our money system. The use of the offset account extinguishes the national debt and is a blessing for my fellow man.

I understand our money system requires to have payment made into it and the honest glowing of ones luminosity unreservedly and unconditionally into ones family tribe and living community is the payment which fuels and accesses the offset account.

I understand many use our money system for unjust enrichment choosing to dishonestly exchange money of account for money of exchange, who choose to dishonestly exchange ill-usury numbers for sweat equity.

I understand those who operate deceptively cast a shadow, a darkness upon our shared world and lifescape.

I understand those who operate with a clear ethic illumine our shared world and lifescape

I understand honour is offering gestures of precedence, to those whom you would extend grace, it is the spirit in me honours the spirit in you, and I offer a gesture of a preparedness for precedence to you as a fellow living soul,

I understand my oath or my word is my honour, and I choose my words carefully, as in true honour I accept being bound or committed to my word.

I understand to offer apology for wrong doing or mistake is honourable and therefore as a human being vulnerable to illusion, delusion, mistake, miscalculation and error I am open to being corrected and consequently amendable if necessary.

I understand my honour has me accept obligations of duty and responsibility to all contracts entered knowingly and willingly as destiny

I honour life by unconditional accepting the evolution of all others. I honour the notion to allow and accept all others with whom I share life breath and living community, I honour all contracts entered into willingly and knowingly, my clear and truthful intellect is my sword of honour

I understand my trust has been betrayed by those who have taken responsibility to serve our collective organs and govern and distribute the commonwealth of humanity to each and every cell.

Our world may be perceived as opposites a duality of yin and yang the duality we seek to explore in our understanding of the occult world of law and commerce is private and public.

We come to this world and begin in the private world of our mothers arms the love and comfort of our family and extend out from there into the shared world of others.

Public world is generally the shared world of others we do not know personally .

The world of law has two jurisdictions one for the private world and one for the public

The jurisdiction for the private world is the law of the land, or common law based in common sense and equality, an acknowledgement of the rights of the individual and each individuals equality before the laws moral and natural. The laws of the land are the laws of creation and are a living expression of the most private relationship we all enjoy and that is our unique and individual personal and private relationship with the notion of god. In the law of the land we have a heirachy of god the creator, then man being gods creation , then the public realm and all its associations and incorporations being the creation of man.

The term lawful refers to the laws of the land, the private jurisdictions
The term legal refers to the regulations and rules of the sea of commerce, the public jurisdiction.

The jurisdiction for the public world is the law of the sea, which is the law of commerce which allows the beings of the planet to exchange with each other in a uniformity based in honour.

The heirachy of the law of commerce is the most powerful fiction over the least powerful fictions.

The corporation's of government over unincorporated corporations being persons and citizens.

The simple secret of the two jurisdictions is where you as a living soul have your standing in your own mind and soul, and where your standing is recorded in the fiction of the public realm.

Your standing is fundamentally your understanding , which is that which you knowingly stand under. That which you know your self to be , Are you the sovereign authority in your life

adventure ?

Your descriptive appellation, your Title, may be held by you lawfully in truth and common sense,
or your appellation noted as a name may be held legally on paper record by the public fiction

In our clever fictional world of corporation and its command of the legal rules and regulations of
commerce it has designed a means of having for us record of they holding legal title in the form of
a Birth Certificate.

At birth our parents fill in forms to register our birth and upon which is created a legal title for
the living soul born.

A certificate is issued to certify a title exists and is held by an authority.

By the title being held by an authority other than yourself means legally your standing is in the
jurisdiction of the public, your title exists legally as chattel of a fiction.

Through our innocence of acceptance we say we are our name, and then through joinder we are
held as surety for the legal identity held as chattel by the fiction government corporation.

This means your legal existance is under the heirachy of the public which has you under the
corporation.

To correct my standing I honourably make accession for title

I honourable and ethically accept and return for value
my certificate of birth as symbol of my being but one of the many coming awakened cells of the
organism of humanity and one of the many awakened units of the unity of the intent of creation.

Utter goodness and divinity expresses omnipotent power in principles of geometric,
decentralized, unconditional sharing, within and through out
guilds of sovereign individual units .

This principle of utter good, divine balance and harmony is the unequivocal law of cosmos and
nature

and may be our living gnostic experience and template for an enlightened humanity, individually
and collectively

I understand the Australian nations affirmation of reconciliation is testimony of the uniting of unity consciousness and the separated ego.

The Australian aboriginal is symbolic of our lost and beleaguered spirit; our collective notion of unity consciousness; the common good of All; and sensitive connection to nature and the entirety of the organism of humanity we indeed All are; sensitive connection to the dreaming of creation.

The white western civilization is symbolic of the separated ego, lost in nature and fellow man destroying delusion.

The aboriginal welcome to country ceremony performed at Parliament House on the 12-2-08 is testimony to the grace of the aboriginal people and they being symbol of the good of All.

The Australian national affirmation of reconciliation and the national apology on sorry day 13th February 2008 are testimony of the spiritual healing of the personality of the Australian continental portion of the body of humanity

The English Declaration of Rights 13th February 1689 [Bill of Rights 1688]
parliament says sorry 320 years to the day?

with this national process aboriginals represent the healing of feelings of despair and resentment for what has been done to All earth honouring beings, who have been helpless against the dark force of the religious/corporate/ government/ banking system. And the invaders may heal their feelings of arrogant denial cloaking their deep shame for what they have been led to do, for what they have exacted upon other living souls with whom they share life, breath and living community, for turning their back on fellow man.

. Through out history self-interested beings have used powerful though spiritually immature intellect to secure for themselves positions of privilege and access to great wealth, greedily disregarding the other beings with whom they share this reality, greedily securing for themselves access to the common wealth of All, greedily using unfair advantage at every opportunity. These beings have and do operate from a material consciousness, a lower octave of being human to those whom are spiritually conscious.

I understand that it is through the vessels of organized religions that humanity has come to learn about and begin to become cognizant of ethics.

I understand that enlightened words of wisdom may be found within the instruments of the bible and other religious books and may guide beings toward lumination of self and others.

I understand that the instruments of bible and other religious books may be used to trick beings into accepting external authority, relinquishing personal sovereignty, personal reasoning and personal authority.

I understand beings have used religion to control and dominate humanity, and has developed systems of law for totalitarian domination, such as canon law, civil law and admiralty law.

I understand that the laws of totalitarian domination are divine in their principal although administered and executed by the spiritually immature.

I understand that the vessels of organised religions have failed to bring honesty, unity, peace, intelligence or enlightenment to collective humanity.

I understand that the notions of science and scientific thinking in the service of self interest and the apprehension of power, has been the directing force for humanity

I understand that the governments and justice systems of the planet have operated separated from religions, guided by scientific thinking and have pursued spiritually immature outcomes that have no ethical foundation and when not unreservedly directed toward the common good of All, have no principle.

I understand that the greatest material forces in our world and among our collective humanity are the commercial corporate monoliths of the central banks, and it is from these contained bodies of our common wealth where we may expect manifestation of magnificent benefaction.

I understand that the corporations dominating the unfolding of collective destiny operate primarily for self interest, and offer token gestures of charity as their claim of philanthropy.

RELIGION/SPIRIT

I understand that religion means adherence to an agreed set of notions of what and how we may share existence, a form of common law.

I understand that Spirit is the wholeness of every living whole.

Spirit only deals with wholes.

Spirit is that which ever tends to re-establish wholeness, balance, harmony, integration, health and plenitude.

Spiritual meaning is an expression of relatedness.

Spirit is pure and spontaneous creative activity, forever original and free.

I understand that it is mechanically, practically and unequivocally beneficial to the entirety of the organism of which we are All a part, to view and perceive our participation and intergation with
All Spiritually,

I understand that it is beneficial to All to live and act spiritually, in attitude and deed.

I understand the development of secular ethics of being and sharing existence is beneficial to the common good of All when conceived and perceived spirituAlly.

I understand that **religion** operates conditionally, defending adherence to a set of notions, and from self interest is limited to extend only charity to those with whom it shares life breath and community.

I understand that **spirituality** operates unconditionally and is limitlessly able to extend grace and goodness to those with whom it shares life breath and living community,

I understand the limitations of **religion** stem from the fear of the unknown

I understand the limitlessness of **spirituality** stems from the acceptance of the unknown

I understand **religion** has fixed dogmatic belief ,which it is willing to kill or die for; it is willing to prescribe notions used to define and control life, existence and other living souls.

I understand **spirituality** has no fixed belief, and may accept and exchange any notion defined or yet to be defined and simply Allows life existence and All living souls.

I understand **religion** prescribes certain ways of being for its adherents, certain moral constraints which must be adhered to for approval.

I understand **spirituality** offers the notion to explore and discover your wholeness in your own living experience in accord with goodness, your own and the common good.

I understand religion to be patriachal in its expression and convolutes the meaning and value of sexuality to suit an agenda of control, imposing the vibrational frequency of shame upon those

whose natural sexual expression extends beyond the narrow confines of religious sexophobic morality.

I understand contemporary humanity intuitively well its sovereign right to know and express its spiritual expression as its sexual expression openly, honestly and freely.

I understand organized religion prescribes meaning and purpose for life interpreted by the select few, solemn agents of a political authority.

I understand organized religion is advocate of the notion of god as an external authority, and as such imbibes the notion that beings accept external authority over their own personal authority.

I understand spirituality promotes discovery of meaning and purpose in your own living experience by living with love, compassion, truth, joy, sharing and goodness.

I understand organized religion identifies human sensitivities of self reflection and discovery, of extra sensory perception and altered states as being evil or of the devil.

I understand spirituality promotes and inspires the development of All facets of knowing god and universe in your own living experience.

LAW

I understand spirituality is a principle of nature and is synonymous with the laws of nature
I understand spirituality is the intent of creation

I understand the laws of nature are the omnipotent, omnipresent uncontrollable power that directs and limits our very existence, is the template for All the laws that we may use to live and exist together by.

I understand that observation of our human body reveals laws natural and divine which, intelligent humanity may use unreservedly as template for harmonious and balanced life and existence.

I understand the spiritual mechanics of existing, in regard to personality and its ego expression

is the same in an individual as it is in the collective.

I understand the simple observation of a selfish ego driven being and the affects he/she may have on those around them is the same as a corporate body of individuals who in collaboration may express selfish ego and affect greedily and insensitively those around it.

I understand that the life, individuality and autonomy of our each and every cell and their actions in community and collaboration as a body of human form is a natural and divine template that may be used unreservedly by humanity to know and understand clearly and unequivocally how we may exist in collaboration in familys, tribes, communitys, systems, and organs.

I understand that within the community of cells that collaborate to form my own and your own human form are geometric truths of harmony and common goodness where All cells operate to live well its own existance while that well living enhances the common good of All the other cells in the organism.

I understand that the organization of cells in different systems and organs are in their groups organized at greater levels of existence that combine in a harmony and goodness that Allows the well and good existence of the organism in its entirety.

I understand the performance of the cells of a toe are in their humble duty to their destiny, equAlly as important to the entirety of the organism as the duty and destiny of the cells of the heart, lung, liver, brain or any of the other groups of cells who in their colaboration work for the well and good for their group, as well as the groups overAll role in the greater harmony and luminosity of the greater whole.

I understand the actions of cells in groups that do not work for the harmony well and good of the entire organism of which they are a smAll part, that greedily in self interest secure for themselves more of the life force of the organism than which is their due, they are described in anatomy as cancerous tumors.

I understand that cells of an organism that are humbly dedicated to their role and the harmony of the destiny of their lot in the scheme of things are duty bound to not support or contribute energy to those groups of cells who are operating against the common good of the harmony of the entire organism.

Casual glance of our shared world reveals that the attitudes of present authoritarian systems

have cancerously hijacked humanities collective organs of *religion-pituitary* [the organ that opens our capacity to contemplate and reason with thought, to realize our ultimate imagination throughout the body and manifest it into experience for greater understanding in harmony with the intent of creation], *government-heart* [the organ that delivers nourishment to All cells unconditionally and unreservedly], *justice-lungs* [the organ that delivers clear and cleansing oxygen to All cells, to enrich with light of reason to oxidize all that is dark and damaged], and *immune system our police and military* [the system which arrests All that may harm or disrupt harmony].

This controlled private corporate domain controlling our divine organs has been established and operated by self interested, greedy, spiritually immature beings who in dark hearted delusion reveal their deep seated suicidal self loathing and their inner terrified fear of utter goodness and the mystery of the unknown.

This chronic condition has these delusional psychopaths exacting a tyranny over the body of humanity, their spiritual immaturity is hallmarked by-- their covertly disguising, deceptively hiding their intent, their motivation and agenda, -- their displaying ruthless need to possess and control the common wealth of All; -- their expressing lack of sensitivity to the other living souls with whom they share life breath and living community; --their apparent blindness to the comprehension of their being fellow cells of a greater organism; --their frustrated self loathing of having lost connection to their heart and true nature.

The present attitudes and actions of our organs of justice and government reveal lack of imagination to see the true abundance of a harmonious enlightened planetary collaboration of unconditional care and goodness.

The religious/corporate/government/banking systems have proved to be working in self interest, and have betrayed those with whom they share reality, have betrayed the natural charter of the organs of which they form in the greater whole of the organism we All are, they have proved that they can not be trusted.

War is inevitable when you create scarcity, corruption of individual lives, minds and communities war is inevitable when corrupt organs feed them, the present world of organized religion and corporate greed is drawing to an end because it is no longer relevant to our collective spiritual process, because it can no longer hold back against the weight of cosmic law which commands ethic, honest, truthful unfolding of the organism of humanity.

Corporation's' spiritual immaturity is hallmarked by their promoting and working toward an empire of centralizing force of control in the hands of a deluded few who use military might upon the body of humanity like an auto immune disease.

The cremation of care is an essential ingredient for this cancer to thrive and guarantee its self interested, greedy access to the common wealth of All.

I understand that entities which have absolute power exercise and exact it with self interest and greed, with the lessor octave of being:- the survival of the fittest, the raw and base laws of animal predatory nature, not the enlightened laws of oneness.

The willingness to engage in war is testimony to the degree of evolution of the beings leading and involved in these greedy self interested corporations.

The obeying of the corporations to engage in war by world governments is testimony to the degree of evolution of the beings leading and involved in our organs of government.

The Allowing of private banks to create and issue our currency is testimony to the treason and self interest of the administrators of the organ of government, is testimony to their status of cancerous tumor .

The silence of the religious bodies who Allow the vessels of corporations and organs of government free range is testimony to the degree of evolution of the leaders and administration of world religions, is testimony to the organ of religion's disconnection to the principle of light it rightly represents, the principle of goodness it has lost connection to, cognition and sight of. The holding and hoarding of enormous wealth is testimony of the ego paradigm, the attitudes and octave of evolution of the leaders and administration of world religions.

It is my understanding that the organ of government has the divine right to create and issue freely the currency of exchange for our communities.

I understand that private corporate banks create issue and control the monies which are the currency of our substance and interaction in living community.

I understand that these fraudulent actions of the bankers is for enormous unearned profit, is for unjust enrichment, is theft of our substance and is indefensible

I understand that government is guilty of treason, fraud, and tyranny by not having revealed openly honestly and clearly to All whom they serve, the mechanics of how credit is created; how

national debt is created; the workings of the courts; the nature of civil liberties being legislated against the perpetuation of commercial servitude and debt slavery.

I understand that private corporate banks steal life force by creating money from thin air and exacting usury upon their fellow beings to make use of it.

Maxims--

Usury is odious in law --It is a fraud to conceal a fraud--

Once a fraud always a fraud--Too much subtlety is reprobated in law --External actions show internal secrets

Lata culpa dolo aequiparatur. Gross negligence is equal to fraud.

Government has been negligent in sharing open honest understandings of how our shared world operates, and indeed how we may in collaboration have it operate for the common good of all.

I understand that it is my duty as a living cell of the organism of humanity to not support nor contribute energy to groups of individuals who in their collaboration are acting repugnantly against the wholeness of the organism of which they are a part.

I understand that it is my duty as a living cell of the organism of humanity to identify, to highlight, to divert energy away from those individuals who in their collaboration are using force, unfair advantage, securing in self interest that which is not their due, acting in disharmonious ways that detract from the well and good of All, that are acting as cancerous tumors threatening the harmony, the very life of the entirety of the organism that we in deed All are.

I understand it is my duty to illumine from my own beingness and reflect upon All that surround me an integrity that endeavors to imbibe enhancement of the livability, the harmony, health, vitality and ultimate enlightenment of the organism of which I am but one cell

I understand it is my duty to live my life honestly with open heart and open mind, to contribute unreservedly to the common good of All, to act with love, compassion, grace and truth in my relationships, and my dealings.

I understand the simple organic sustainable ways of being illumined by permaculture is template for the enlightenment of humanity. This light emerging from the grass roots of our living

communities is the ethic of the nature of creation and has begun its dynamic growth like a banyan fig coming to dominate the forest.

I understand that the law of commerce applies to All life and existence, and that it is I commerce with this reality, and with All the other life forms with whom I share life breath and living community.

I understand that openness, honesty and intention of common good to be the fundamental requirements of the harmonious workings of commerce.

I understand that to contract is opposite to expand. To commerce with an other living soul is to enter into contract. This is to leave the limitless expanse of spirit and contract our life force into the confinement of some common endeavour, to enter the contracted world of logos and egos. In simple terms we meet and enter a marriage of common purpose, All commerce and contract is a marriage of degree. From mere moments to a life time marriages are sown throughout our entire life adventure. We may have access to infinite types of contract both positive and negative.

I understand that the laws we have codified and statuted in our living communities, and administered through our organs of government and justice are fundamentally the laws of commerce and All human interaction is a commerce.

I understand that at a fundamental level the law of our western civilization is divided into two, one the law of the land [common sense] and two, the law of the sea [commerce].

The law of the land is born from our culture, conditions and circumstance and is the common law, it has for we in Australia evolved from the druids, the wise servants of truth, of Great Britain, they upheld the rights of the individual in this brief adventure we call life and they instilled the knowing of our immortality. Whereas the civil laws of the invading forces of the normans carried with them the attitude of roman civil law, where the state deemed it possessed All and All beings were as chattel to the dominating ruling class.

The battle for the rights of the individual to enjoy liberty, justice, freedom, for self and property has been fought for by we the free men and women of reality, the meagre rights have been codified in such instruments as the Magna Carta 1215 where the king agreed we All have a right to own a portion of our shared planet, the King James Bible 1611 established the ethics of commerce and notions of the virtues of love and grace and the common good of All, the Habeas Corpus Act 1679 established All living souls have an inalienable right of liberty and

freedom, the English Bill of Rights 1688 was swearing of oath of the ruling class that we may enjoy in perpetuity rights to property and freedom, the Coronation Oaths Act ensured the titular sovereign acknowledged All beings are second only to god, and the Constitution of the Commonwealth of Australia Act aligning we the people of australia with the aforementioned codes and acknowledgement of the sovereignty of the people.

Our common law deems we as living souls are innocent until proven guilty, where we are as a community deemed to have substance and may exchange freely our substance, or if necessary weigh our conflict of substance before All in the form of judge and a jury of 12 of our peers, the sacred geometry of 13 kissing spheres.

The common law is a fixed set of decisions which ensure stability and certainty for our rights and property; born out of the need to keep in check the power of those with limitless resource over the common man, the common good. The common law belongs to unity consciousness, it exists to protect and preserve the sovereignty of each unique and individual cell of the wholeness of the organism we are as humanity.

The law of the sea is the standard law of commercing which extends beyond the borders of the law of the land, the individualities of customs and cultures and endeavors to cover All people of the earth with a uniform and reliable means of commercing, as the sea covers the globe.

I understand that our system of judicial law may operate in a jurisdiction which draws its substance from the common law and Equity, where it seeks to blend the way we like to do things (culture and common law) with acting in the moment from conscience, impartially, fairly, and equally (equity).

Or it may operate in a jurisdiction which draws its substance from Civil or Admiralty, a deemed Sovereign Body (the Crown) and on its behalf command in accordance with the will of the deemed fictional sovereign. This type of law is no longer relevant to humanity as it serves the few who would seek to profit from the many. It is an archaic expression of separated ego consciousness which can no longer hide behind the delusional dogma of organised religions and the greedy self interested notions of empire.

I understand that the attitude worn by the court may be one of despotic admiralty where the assumed authority commands with tyranny and oppression serving the agenda of its master, deeming living souls to be chattel debtors to a secured party, guilty until proven innocent, operating the court as a debtors equity court on behalf of a secured party ;

I understand that this parasitic attitude is repugnant to life and laws of nature and goodness; that this attitude is testimony to ego separation from the common good of the living whole.

The court may have attitude of equitable common law, common sense, where with wisdom it endeavors to evoke, induce, prompt, inspire and compel an outcome in service to the common good of All.

We may observe that common law and commercial law require to exist hand in hand, common law belongs to the substance of being and commerce to the living interaction and interrelation of all substance.

I understand the law of equity to be seeking equanimity in the dance of commerce, from the perspective of impartiality, seeking to secure qualities of fairness. From the perspective of natural law it is the law of equity which endeavors to develop conscience and awareness of the shortcomings of common law which evolves from the living culture of our collective being and our traditions. Culture is the way we do things, and common law is the popular mechanical understanding of what is the most practical and ultimately harmonious way to be and do.

The Law of Equity identifies axioms of
— All disharmony has remedy;
— it is in spirit and intent where we may adjust form into balance;
— that which is well, good and equal for All is the law of laws.

ACTS

All life is but a big game, it has many actors and many Acts, the Acts presented by a society are the rules of the game they play together. Those who choose to not play, those who choose not to be a member of the game exist freely, in the principle of sovereign presence.

There is a gathering of mankind in our present western civilized shared world which acts as the principal whom creates and installs the acts by which persons perform life, the Acts of parliament.

I understand acts which omit the words love, compassion and truth are constructed to serve self interest and greed, are the tools of the separated ego.

I understand acts which include the words love, compassion and truth serve unity consciousness,

serve the spirit of man and mankind.

Do we see displayed in All these acts the evidence of truth, the clarity of light, a mathematical formula for abundance of health and the common good of All?

I understand our institutions of family, tribe, community, government, judiciary, commerce, industry and media are All expressions of our divine human nature

I understand that if religion was operating in its divinity it would be the custodian of our definitions of utter goodness and the common good of All, inspiring All to enjoin and enjoy developing notions of goodness

*I understand that if justice was operating in align with our true divinity, it would be a community structure answering All needs for balance between good and bad, right and wrong, run by wise elders of the community offering **free** access to common sense, good conscience, wise counsel, life direction guidance or rehabilitation.*

I understand the present justice proportional to wealth system has the men and women of law motivated by profit not honour.

I understand that government when working in align with divinity would administrate and regulate the flow and supply of energy to the working whole, directing wealth to the areas that require nourishment and redirecting flow away from areas that are being over nourished and consequently corrupted.

I understand the present corporate attitude of government has the men and women of government motivated by profit not honour.

When something is spelled out in truth it is clear, concise, complete, unequivocal and understandable by a child.

It is self evident that the Acts which form the boundaries within which we All must live and perform are convoluted, deceptive, and are interpreted by an elite few for great profit and ultimate domination. We have a tradition of an elite few controlling the destiny of us All, and imposing their notions upon us All.

The present administration of our organ of justice operates the workings of law in a deceptive and unnecessarily complicated labyrinth of copy written statutes and precedents that may be

interpreted only by the elite doctrine conveyors, the well paid minions.

There is no evidence to indicate that the organ of government and justice is administered to support the common good of All

The body of religion/corporate/government/banking systems are in essence fictions brought to life by those with limited liability, the fiction itself has no feeling it is as a corpse it has no feeling for any, has no ability to express the common good of all, has no will, has no heart.

the common good of all may only be activated energized executed and administered by the common man, the grass roots, the families, the tribes and the communities. As these are the bodies that may extend heart warmth into reality.

In cosmic law without contraries there can be no progression.

I understand the law of perpetual motion is the equal and opposite use of contrary forces.

I understand that we live and exist in duality of centralizing controlling force in the hands of a few, who exact separation division fight struggle and war upon the meek.

The present dominating attitude of self interest and greed expressed by humanities religion/corporate/government/banking systems is hallmark of collective humanity's process of reconciliation a spiritual I.Q test, an evolution and maturing of All mankind- *away from* the limited potentials of living the paradigm of domination, control, separation, division, fight, struggle and war against the meek *to* the common good of All.

I understand the process of reconciliation represents our human process of finding equity, equanimity and equilibrium in our masculinity, and femininity, in our self interested separated ego and the unity consciousness of our spirit both individually and collectively

I understand the process of reconciliation represents our human process of uniting our yang dominated mind with our yin dominated heart.

I understand the process of reconciliation represents humanities coming into balancing the raw powers of invoke, provoke, evoke, inspire, apprehend, determine, persist, overcome, overwhelm, construct, destruct, destroy obliterate and the **manifest-ability** of the separated ego

with the stillness, peace, serenity, insight, humility and **create-ability** of the meek,

The meek are those of our herd identified in the bible as the inheritors of the earth

Dictionary defines meek as humble, patient, gentle, kind, soft and mild, and also in a negative it describes the meek as overly submissive, compliant, tame, spiritless, docile as under provocation from others.

The meek represent the principle of unity consciousness, an All inclusive unconditional nurture, selfishly selfless, enjoying in simplicity the unfolding, and responding with the cosmic power of Allowance, while in patience and humility creating the intent the law of attraction will ultimately work upon. Their nature of acceptance and Allowance has the meek seen as being compliant, tame, spiritless, and docile, but their core of patient, gentle kindness awaits the separated egos return from adventures in separation, division, destruction war and obliteration to lend its great spirit to unity.

To ponder a perspective of the attitudes at play in our present society, we may observe ordinary mankind in material consciousness, when growing toward the good displays a balanced benign ego personality of meek conforming, accepting and Allowing;

when man has fallen into delusion he displays the self interested greedy ego of domination and control;

and in enlightened cosmic evolving from this dance of opposites is spiritual mankind expressing an attitude of soul centered ego expression, of deliberate love laughing joy and All inclusive sweetness, the common good of All.

Casual glance indicates we are Allowing our systems to be controlled by the spiritually immature, those who take materiality seriously, seeking puerile need to possess and control in lieu of Allow and love.

In simple terms we may define the reconciled as those who would seek to disassociate from a deceptive society and move to a new society, to move from the good for me to the good of All, to move from those whose spirit emanates control and oppression to those who emanate love, change, freedom, eternity

I accept that there will be many agents for the government concerned and suspicious of this notice as a simple soul-ution to the present ongoing governmental and judicial tyranny. In kind regard and compassion for those government agents still to awaken to their spirituality, I

offer discussion and negotiation to understand this human process of diplomatic protest .
(pro-test=In favour of the proposition of a test of integrity
and enlightenment.)

Myself and millions of other sovereign individuals are to test the integrity of The Australian Government and other governments of the world, by choosing to remove our consent to be represented and governed in the present style and attitude of current religion/government/corporate/banking systems and command our organs of government and justice to unequivocally swear oath to serve unreservedly the common good of All, to guarantee to exercise authority lawfully, exercised with restraint, accountability, understanding, love and compassion.

If it is that our organ of government and justice is not deceptive and operating against the common good then the Governor General and Ministers of cabinet will volunteer unreservedly to swear public oath to we the people stating that they will align unreservedly with the common good of All, swear to the principle of individual sovereignty, will explain clearly honestly and unequivocally the relationship of the royal family, the crown, the banks and the status of the Australian Government in regard to being a corporation and the status of the Reserve Bank as a private organization, the status of the bar and who it serves and how it operates in the courts, the status of our means of creating and issuing currency and credit, the status of how national debt is created and its relationship to income tax. To explain how private banks continue to enjoy the spoils of unearned income in the form of interest upon monies created from nothing and used as legal tender.

My participation in the initiative of this and other notices has intent to provoke, invoke and inspire notions which will imbibe an optimistically freer and more just society

My intent is to promote a society enthusiastically excited by the challenge to claim openly, clearly and unequivocally a heartfelt dedication to the common good of All.

A society which invokes promotes and inspires alignment to divine law and the common good of All.

A society with sovereign Leaderships which prides itself on clear public oath to the common good, guided by the continual input of community based integrity auditing.

A society founded upon a Permaculture garden of decentralized goodness sharing

communities.

I choose to live in peace within current communities who's members pledge membership to a society governed by the present Law society and its hidden masters.

I choose to live in peace within current communities who's members are in a global transition from feudal enslavement to sovereign right

I understand it is the Law society which pens our statutory rules and regulation and applies them to the unfolding of our lives in the courts.

Law society membership has made oath to a fictitious sovereign (the CROWN) and hence relinquished All and any authority over any sovereign individual

I am neither a person nor a citizen, I am a living soul personifying spirit through human form. I am a spiritual being and reserve my god given right to enjoy spiritual, intellectual and physical freedom now and evermore in All dimensions.

I understand as a living soul that the whole notion of the Queen as a sovereign over subjects is nothing more than a tyranny of souls, a tradition of dishonest theft by robber lords and barons, families and corporations of humanities common wealth.

I have lived with honour in my life, having paid my way honestly always, I have contributed my effort and sweat equity openly and generously into my family, my tribe and my community. I have paid All taxes, fines, fees, licenses, interest and various other extortions in good faith. I have operated with absolute honesty always, to the experimenting point of being penalized for my honesty on many occasions .

I have an honest nature, and feel naturally compelled to use utter truth to my best ability and advantage, I support the notion that to knowingly tell a lie is actually harmful physically, psychically and spiritually, as it is destructive to the neuro-net in my brain and has a viral effect upon my mind like a virus in a computer.

Maxim— To lie is to go against the mind.

I choose to live mindfully of the ever growing and evolving secular ethic of my being a living soul

sharing a brief stay upon our beautiful planet with many other living souls, trusting we All together are seeking to enjoy our life to find peace, abundance, love, and conscious knowing of enlightenment and immortality..

I grew up in the gentle nurture of women, they had the most loving heartfelt respect for our authorities, and taught me our Queen was the personification of goodness itself. I have come to learn that their and my own innocent and genuine love and humble respect was and continues to be betrayed by the attitudes of those that govern and judge us All.

There is some thing wrong with the way our world is being run
and has been run.

Observation of and listening to aboriginal Elders has provided epiphany and revelation to simple truths, invisible to minion servants of the
" system".

Much information and dedicated dissemination on the Internet reveals the degree and extent of deception, fraud and theft by corporations and corporate governments and justice systems that are industries for great profit, power and privilege for the few. This justice proportional to wealth system operates for the benefit of the wealthy while deceptively exercising a tyranny over us All.

If it is we truly live in a free and democratic society then I am free to leave.

No more do I submit application nor register.

Maxim—He is not deceived who knows himself to be deceived

No more do I surrender my will and beg to another to hold any form of force over my life, my family, my tribe, or my property.

I serve notice and claim of right

We All have equal sovereignty as appearers in reality.

We All are equal before the law

We All are unique and individual expressions of a greater whole

Maxim- If you know not the names of things the knowledge of things themselves perishes.

What is the name of the society we are a part of?

Maxim—A name is, as it were, the note of a thing

I understand that it is the law society that creates and applies the statutes by which control our lives in society. I understand that only members of the Law Society may use the courts for financial benefit, gain or reward and it is only Law Society members who may act for others in the courts, and people who are not members of the law society do not enjoy full access to the courts. These public places have business hours and are run as business for the profit of members of the law society. I understand it is the law society that creates the illusion of obligation to contract in license and permits.

Maxim— He who does anything through another, is considered as doing it himself

As a Sovereign Living Soul Free-man-on-the-land it is my duty to promote, provoke, invoke, inspire and demonstrate a freer and more just society for All cells of our collective body of humanity. As one cell of our organism my humble use of this notice is to declare my love for the wholeness that we All are. It is my will to bring vital health to the presently affected organs of humanity, its pituitary organ of light- religion, its lungs- the judiciary, its heart- government, its immune system- the Peace Force- police and military.

It is my will to share at All times peaceful, optimistic, compassionate, truthful, loving notions for ponder, and encourage All to live our most magnificent potential of goodness.

I use this notice to bring to the attention of All human beings of goodness to raise above the complicated rigmarole of organized religions, the corruption of our organs of government and justice and the cancerous greed of corporations and their paradigm of separation, division, fight, struggle and war.

I use this notice to re-instate into humanity our true creation nature of utter goodness.

The following notice is used with compassion and consideration for the challenges to thought

and feeling that will be experienced by many government agents and officers while now living through our collective enlightening experience of the global transformation of the collective consciousness of humanity.

I forgive All those minion governmental agents and officers whom over my life have given me cause to find our living system repugnant and not operating for the common good of All. It is not their fault, they know not what they do, they are simply in their present hypnotic sleep state transmitting and installing the attitudes and policy of their chosen masters.

PLEASE TAKE NOTE

As a Sovereign Living Soul Free-man-on-the-land I claim sovereign right to choose what groups or societies I may or may not join.

As a Sovereign Living Soul Free-man-on-the-land I am not a member of the Law society, neither do I apply to be member, nor do I accept obligation to be member, and as such I am beyond the jurisdiction of All and any statutes and by-laws, government regulations and permits, as they are copy written material for which I have no license.

Maxims

Consent makes the law. A contract is a law between the parties, which can acquire force only by consent

A common error does not make law

The multitude of those who err is no excuse for error

Multiplicity and indistinctness produce confusion; the more simple questions are the more lucid.

Simplicity is power.

As a Sovereign Living Soul Free-man-on-the-land I claim the right to disassociate myself from a society that does not unreservedly support the common good of All.

Maxim--Necessity gives a preference with regard to private rights..

As a sovereign I claim the right to disassociate myself from a society whose government and judiciary does not answer clearly, completely, articulately, openly, honestly, and publicly questions of Integrity Audit.

As a Sovereign I claim the right to disassociate myself from a society whose government and judiciary removes deceptively many civil liberties, and where it is not clear what rights and freedoms I must give up to remain a member.

As a Sovereign Living Soul Free-man-on-the-land I live and love in peace with All.

Conflict and dispute is avoidable, unnecessary and undesirable and when it arises is to be dealt with using discussion, negotiation and then if necessary, a adjudication in a court of competent jurisdiction.

It is by example I lead a way to join and support a society of

Sovereign Living Soul Free-man-on-the-land participating in pursuing notions of decentralized goodness sharing.

The present paradigm of empire and centralization of power serves only the greedy and psychotic and their need to extort life force in the form of money for those who choose to live in the limits of the separated ego

PLEASE TAKE NOTE

Until there is evidence of spiritual maturity in the beings in leadership of humanities corporate vessels I choose for my own self protection to remain a foreign sovereign with full diplomatic immunity

Humanity is awakening to a new authority

Our sovereignty as individual, tribe and community
is the awakening global authority

*The evidence of spiritual maturity I will be looking for
so I may see when it is time to enter new open and honest contract with the organs of
government and justice*

It is duty of the corporations to begin immediately to collaborate All the armies and police forces of our world and invoke utter goodness upon the entire force of our collective organ of

immune system.

We command the entire force to perform
the most profound acts of Creation

to establish the entire world as a permaculture garden of peace for All humanity

Our most capable, strong, focused and talented fellow cells united in martial precision leading,
teaching enlightening and transforming the world.

Begin immediately in Iraq apologize for what has thus far been done,
and to establish access to safe, free, food, shelter and water for All.

This is All we as sovereigns ask of our governments, and it may happen in a moment. When our
collective voice is loud enough to hear, our very own flesh and blood will throw down the arms
and weapons of mass destruction of the deceiving, hate creating masters and exchange them for
tools of laughing joy and wonder as we collectively try something different.

We have no need to fight or abandon the system,
simply rejoice as we transform it .

PETER JAMES MITCHELL

I have complete sovereign immunity and therefore, my power to contract or not is unlimited

My word is law

I understand that it is an undeniable truth that All mankind acknowledges in its myriad of religions cultures and philosophies that

God

exists as the supreme absolute and uncontrollable authority of All creation

I understand that All is the template for sovereignty

I understand that as a child of All the power of sovereignty is inherent in my being and is the externalization of the god-force of which I am but a single cell portion, and as such so is every single other living soul with whom I share life breath and community.

I understand that the living souls with whom I share life breath and community have the right to either declare and wear their sovereignty, or consent to relinquish this power to another, and

I understand that we as living souls are in differing stages of our spiritual evolution and as such it may be necessary for some living souls to exist under the care and control of others.

May we entertain the notion that All that is and All that may be conceived, perceived, believed, experienced and imagined is

All

{I choose to use the term All when communicating the notion of God}

Therefore, we, each and every one of us
are single cells of All experiencing the universe and
each of our unique and individual life adventures
is the ever growing, ever expanding, ever evolving, ever changing experience of the living

All

As a single cell of All experiencing itself
I am sovereign

As is any I reading or hearing these words
We may differ only in what we understand and acknowledge
To not accept and acknowledge God's gift of sovereignty is a Blasphemy.

Whereas I understand Australia is a common law jurisdiction, and,

I understand the law belongs to the notion of divine abstractions, where things have no contraries, and is an absolute such as love, essence, humanity, archetypes, aesthetics, algorithms, certainties, ethics, experiences, ideals, logic, mathematics, geometry and proofs.

I understand equality before the law is paramount and mandatory, and,

I understand true law exists solely for our advantage, is immutable and we have no escape from its operation, and,

I understand law exists to preserve and protect our life, our liberty, our rights and our property, and,

I understand that the hierarchy of law is God sovereign over gods creation man, and man sovereign over mans creation government, and government sovereign over governments creation the corporation and,

I understand that I am gods creation and exist as sovereign over mans creation government, and I understand that as a fiction government may only deal with my sovereignty in the form of offers and

I understand that in honour of creation of which as sovereign I am creditor I accept absolutely all offers from government and will to fulfill all its orders that align with my welfare and the common good of all, and

I understand that sovereignty in its simplest definition is complete and uncontrollable authority, and as no human alive may be trusted to define and administer on the behalf of the herd, the

body of humanity, it must be that All express the notion for themselves in accord with simple and timeless axiom of human truth

do unto others as you would them do unto you.

and to escape the timeless insanity of religious division and angst among men we require to simply hold that god is good and good is god beyond holy books and clergies

we require to hold that god is All we may experience through our senses, All we may cognize and convolute with our mind, All we may imagine in our universe and beyond, and that the reality of god is not only more than we know, god is more than we can know.

and there fore from the point of view of a living soul experiencing the unfolding of the mystery of life love and law, beyond the mutterings of man, I may aspire to my greatest good, in my feelings and experience, in my sharing of good in life in time and space and beyond with All, and humbly in All openness witness this unfolding in which I am present.

my observation of men and religion is that much insanity is a result of the dogmatic upholding of religious should s, could s and woulds, and much pain and misery is the side affect of these religious advocates upon the innocent and meek.

the holy books are a creation of man and mans limitation fear and insanity is magnified through them, generally upon the innocent and unsuspecting, upon those who wear a simple good that needs no qualifying, identified as the meek in the bible.

the omnipotence, and omnipresence of god requires no holy book, the truth of god is inherent in every sub atomic particle, every atom of creation, and is actively expressed in the living now in every living soul as the living expression of life forms experiencing the universe,

living sovereignty is humanity growing and evolving into the cognizance of being the direct expression of god as good, and moving from the petty divisions of race and religion, moving from the separated ego expression of division, conflict, dispute, fight, struggle and war.

holy books exist for man to ponder the notion of god and cognize the ethic of commerce.

simplicity is power, simplicity is potency, simplicity is how god works

I understand that sovereignty exists with the people and until we All begin to wear our personal functional sovereignty, and encourage the same in each other, we will become unnecessarily the oppressed slaves of the spiritually immature who presently hold the reigns of power and decision that affect us All, and

I understand that the sovereignty of creation in holographic theory as explained in quantum physics, is that which exists in its entirety reflects entirely its entirety in each and every fragment of itself entirely

I understand that in holograph we are the sovereignty of creation

I understand that the sovereignty of creation exists in All

as the principles of goodness, right, love and law

I understand that the organs of government and justice are an extension of man's divinity and hence a creation of man and are subservient to man, and,

I understand that the laws of nature and universe are the template of God's expression, and by simply observing our living human form in our each and every individuality we may know in our own experience how we may share and express the sovereignty and divinity of God in the living now.

the frailties of the human ego in its expression may be observed in individuals and collective bodies of individuals, the expression of the separated ego may be found in religion, government and justice, it is evident mostly by its lack of humor, its mountains of dogmatic rules and regulations, its uniforms and military arms .

I understand that when either government or justice does not unreservedly serve man freely, then it is in service to self interest and greed, and,

I understand that the Maxim-'Affirmati, non neganti incumbit probatio. The proof lies upon him who affirms, not on him who denies' indicates for word protection one must express in negative averment

I have not seen or been presented with any material proof or evidence that the role of the judicial process is not the resolution of conflicts and the role of the courts is to deal with injustice once it has already occurred, and,

I have not seen or been presented with any material proof or evidence that shows that I may not make this claim of right and live righteously, and,

I understand commerce to be the fundamental law of humanity

I understand it is a divine process of balancing the duality of this reality

I understand the rights of the individual and human sovereignty, as the law which aligns with the

nature of creation and cosmos, and

I have not seen or been presented with any material proof or evidence that a statute is not defined as a legislated rule of society which has been given the force of law through mutual consent, and,

I have not seen or been presented with any material proof or evidence that statute may not be used for the balance and harmony for beings sharing reality

I have not seen or been presented with any material proof or evidence that statute may not be used as a tool of domination and control, and

I have not seen or been presented with any material proof or evidence that use of statute to harvest monies from the population with summary offense and the use of statutes to harvest revenue from prohibition of herbs is not testimony of a force using the organs of justice and government against the common good, and

I have not seen or been presented with any material proof or evidence that it is not duty of the organ of governance to create and supply freely the currency, or substance of exchange required for communities to commerce,

I have not seen or been presented with any material proof or evidence that it is not duty of the organ of governance to direct the immune system, our police and military to remove any corporation which would act as a cancerous tumor upon our body of humanity, and

I have not seen or been presented with any material proof or evidence that a corporation which would create a fiat currency and charge interest upon it does not have an attitude of cancerous tumor, and,

I have not seen or been presented with any material proof or evidence that government serving corporation rule has not deceptively had we the people exchange our god given rights for governmental privileges, and

I have not seen or been presented with any material proof or evidence that a society is not defined as a number of people joined by mutual consent to deliberate, determine and act for a common good, and,

I have not seen or been presented with any material proof or evidence that All Acts of parliament are not statutes which if created in align with truth compassion and love will ensure the harmonious balance of an enlightened society, and

I have not seen or been presented with any material proof or evidence that the only form of government recognized as lawful in Australia is not a representative one, and,

I have not seen or been presented with any material proof or evidence that shows representation does not rely upon a foundation of mutual consent, and,

I have not seen or been presented with any material proof or evidence that the appearance of consent can not be achieved through silence and inaction, and,

I have not seen or been presented with any material proof or evidence that shows any one can be my representative without my consent, and,

I have not seen or been presented with any material proof or evidence that shows my realizing that I am present to my life and my family, my tribe and my community, I do not require to be represented, and ,

I have not seen or been presented with any material proof or evidence that shows my accepting and returning for value my birth certificate is not testimony of my being present, is not evidence of my knowing who I am, is not symbol of my presence reflecting the nature of creation and is not record of my being ethically and honourably able to appropriate all remedy and advantages available to me as an awakened living member of our collective human family and is not notice to government to serve my sovereign access to the common wealth of humanity via my legal entity

PETER JAMES MITCHELL

I have not seen or been presented with any material proof or evidence that the most ethical use of our money system is not allowing me access to my exemption/offset account 483368885

I have not seen or been presented with any material proof or evidence that shows my intent to access and use my exemption account for funding community projects is not an ethical example of how our human family may transcend this present deceptive system of unjust enrichment for non contributing others.

I have not seen or been presented with any material proof or evidence that show statutes have the force of law over those who have not consented to be governed, and,

I have not seen or been presented with any material proof or evidence that man is not sovereign over his creation government which is obliged to honour the will of humanity as the common good of All

I understand this notice is command to all fellow cells of humanity presently operating out of align with the common good of All to remedy

I understand this notice is our humanities breaking of silence

Maxim— He who is silent appears to consent,

Maxim— Time runs against the slothful and those who neglect their rights.

I understand the difference between being a citizen of the Commonwealth and being a Sovereign Living Soul Free-man-on-the-land enjoying the privilege of being born native to the continent Australia, being a participating member of our human family and having ethical honest and honourable sovereign claim to the common wealth , and,

I understand citizens subservient to an administration is but one option in this reality, and,

I understand as Peter-James: Mitchell Sovereign Living Soul Free-man-on-the-land personifying spirit in my human form it is presently necessary to define and distinguish my personification recorded as the legal entity/identity

PETER JAMES MITCHELL

I have not seen or been presented with any material proof or evidence that shows the recording of my legal entity upon a certificate of birth does not exist for accounting and allowing practical access to the common wealth of humanity

I have not seen or been presented with any material proof or evidence that my legal entity is not for my sovereign access to the common wealth of All

I have not seen or been presented with any material proof or evidence that shows it is not duty of the organ of government to provide unreservedly harmless and limitless access to All currency necessary for my welfare and enlightened unfolding while enjoying and sharing life in this three dimensional reality.

I have not seen or been presented with any material proof or evidence that shows it is not lawful to claim diplomatic immunity to any harm from one's tax file number, customer reference number, drivers license number and to declare immunity to any undisclosed actions or obligation to the ' person ' registered on a birth certificate and electoral roll if the organ of which they are extension appears to be operating with force against the common good. And,

I have not seen or been presented with any material proof or evidence that the use of these instruments are not tools to assist the harmonious operation of the workings of governance and require to be offered freely, and

I have not seen or been presented with any material proof or evidence that registration in one sense of the word is not the act of leaving in care to authority a vessel until sovereign authority (the captain, the capitol, the wealth the worth the value) takes re-possession, and,

I have not seen or been presented with any material proof or evidence that if the organ of governance operated in align with truth and justice my having registration or license would not be for my ultimate protection, benefit, advantage and good.

I have not seen or been presented with any material proof or evidence that shows that my birth certificate is not a registration of birth, and registration is the act of leaving in care until you return to claim, and

My birth certificate is record of my sovereign existence, my sovereignty and my sovereign claim to the common wealth of humanity, and

This notice is my declaration of my reclaiming my record of live birth, and ceasing registration. I take back title of my legal identity
